

WRL - Life-changing opportunities!

What courses can I take at Nottingham University for my future career?

Year 5 visited Nottingham University to experience some of the activities and course they could take if they wanted to further their education. They had a tour of the University, met students who talked about the courses they were doing and participated in sporting activities, which the University provides.

An advocate from Nottingham University visited Springbank to talk to Year 5 about the different types of courses offered at Nottingham University.

E.G. teaching, nursing, welding, zoology,

sport

physiotherapist,

brick laying,

psychology, aerospace

engineering, agriculture,

archeology, chemistry,

computer science, history

and many more.
