Town Mouse Country Mouse

## Town

A town is a human settlement. It is a built-up area with a name and boundaries with a local government. It is bigger than a village and smaller than a city. Towns have access to local amenities such as shops and schools. Towns usually have better transport links too.

Eastwood is a town.

## Country

The country is also referred to as the countryside. It is a rural area between towns and cities. The countryside refers to the land and scenery of a rural area. The 'country' can contain areas of human settlements such as villages. Villages are larger than hamlets and smaller than towns.

## Glossary:

**Vegetation-** a grouped collection of plants found in a particular area or habitat.

**Harbour-** a sheltered body of water where boats can dock.

**Cliff-** a vertical or near vertical rock exposure. Often formed by erosion and weathering.

**Hill-** a landform that rises above the surrounding area.

**Mountain-** a landform that rises above the surrounding area, usually steeper than a hill and has a peak.

**Port-** a town or city with a harbour and access to the water.

**Valley-** a low area of land between hills or mountains often, with a river or a stream.

**River-** a large natural stream of water flowing to the sea or lake.

**Farm-** an area of land and its buildings used for growing or rearing animals.
